It has more than regained the loss, and now has sixty-nine can speak much better; can form some letters than regained the loss, and how has sidy-intered the loss, and how has sidy-intered pupils; as large a number, with one or two exceptions, as any institution in the United States has in proportion to the white population of the State. The total number of pupils admitted three or four of our series of outline maps. I have not the last year, was singly seen.

State. The total number of papils admitted during the last year was eighty-seven.

There are four instructors, and we understand a filth one will be added fur the next session. It is designed during the present and next session to erect a new and enlarged edifice, additional to the present buildings, which will afford accummodation to all the deaf mutes of the State who may apply for admits-ion. Changes in the internal management of the lutitution have been effected, and will go into operation in the fall, favorable to economy and efficiency.

Our strention has been particularly drawn to the appendix relating to the education of idiots. It will be made to prove the education of idiots. Our strenton has been particularly drawn to the appendix relating to the education of idiots. It will be new to most of our readers, as it is to us, to know that schools have been established both in Europe and Anterica for this most unfortunate of all classes of unfortunates. Many will be incredulous when informent that the largest portion of those that puss under the general designation of Idiots, and for whose mere physical support our State now pays an annual sunt of ever twenty thousand dollars, are capable of receiving an education and training sufficient to reclaim them to us lithness und self-support.—
This has been abundantly demonstrated both in this and other countries. There is no doubt at all that if the money now paid for the bire sustenance of the infigent Idiots of Kentucky—a sum annually increasing in amount—were spent in the support of an institution for their education, literary and industrial, litree-fourths of their might be made self-supporters.

Needed to the State of the Idiots of the public of Tark would seem to be present amount forthem might be made self-supporters

We earnestly call the alternion of the public to thus important and novel subject, as important as it is novel. In 1829 the annual support the question. In conclusion, we quote the following appeal from the report under consideration of indigent miots cost the State of Kennucky, of Kentucky was one of the earliest States to expect the property of the states of the conclusion of the earliest states to expect the property of prepare this class of persons for described and their particular are of all unfortunates the most to be pitted, and most deserve public sympathy and the State? The Report was led to notice this the State? The Report was led to notice this the State?

Whitley 17, and from one to ten in every county to the State except Billard, il moock, Powell, and Trigg, in which there are none.

Schools for Idiots have been established, and are now in successful operation in France. Switzerband, Wurtemburg, Prussia, Saxony, and England. In this country there are two institutions in Massachuselts, one public and the other private and public institutions in Pennsylvania and N. York, established and patronized by the State. In their second year's report, the time and confirm also intely what they intimated as their belief in their first report, that in almost nil cases, and with very few, if any exceptious, those usually called Idius, under the age of 12 or 15, may be no trained and instructed, as to render them useful to themselves, and fitted to learn some of the

and the largest but of tond furth to 3 feet high; Tin Toys in endless variety, and all such articles as are usually kept in such establishments. Oranges, Lemmis, Apples, Nuis of all kinds; Harrydis; Extracts of the buest grade; Perfune Baga; Emery Pishous, and a great many articles soutable for Christmas Presents.
Having in my emishy a first rate Confectioner, eo ables me to lurinish Weldings and Parties in the finest style and on the shurtest notice, and most reasonable terms.

Juna 8, 1851.-3tw&1w. WP. LOOMIS,

AYER'S PILLS,

A NEW and singularly successful remedy for the A enre of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousi ess, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more an less required and much sickcine is not more or less required, and much sick-ness and suffering might be prevented, if a harm-less but effectual Cathartic were more freely nsed. No person can feel well while a costive habit of Opposite C. G. Graham's Stable, less but effectual Catharite were more freely used. No person can feel well while a costive habit of body prevails; besides It soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the bearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Prysicians, Professors, and Patients, has shown results surpassing any thing bitherto known of any medicine. Cures have been effected beyond belief, were they not subatantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these factes, are

Puor. Valentine Mort, the distinguished Surgeon of New York City.

Doct. A. A. Hayes, Praetical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

In a L. Monke, M. D., an eminent Surgeon and like and a horte or latitudes, as an antidute for like a specific and a horte or latitudes, as an antidute for companied by neght-mare. After esting, I had sever companied by neght-mare.

IRA L. MODRE, M D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

II. C. SOUTHWICK, Esq., one of the first mer chants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many kundred such wames, from all parts where the Pills have then need but not had parts where the Pills have then need but not had parts where the Pills have then need but not had parts where the Pills have then need but not had parts where the Pills have

been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical acience can afford. They are compounded not of the drives themselves, but of the medicinal virtues. the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by clemical process in a state of purity, and combined together in such a manner as to insure the best results. This in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of aerimonious end injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the effect is present. All the inert and obnoxious qualities of each substauce employed are left behind, the curative virtues only being retained. Hence it is celf-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful autidote to discase than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician and as he could not reprovely induced.

should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have aupplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known Their life consists in their mystery. I have no

Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are conspetent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientifie men to be a wonderful medicine before its effects were known. Many emittent Physicians have declared the same thing of my Pills, and even pages confidently, and even will.

JAMES C. AYER.

Erystpelas Cured by the use of Dr. Quysott's Es truct of Yellow Dick and Sarsaparilla: SCOTT TOWNSHIP, VANOENBORO CO., louisana, July 4th, 1853.

J. D. Park-Dear Sir:-It is with great pleasure 1 write about the very happy effects of your 'Dr. Guy-PURIFICATION OF THE BLOOD, sout's Extract of Villow Dock and Sarsaparilla, upon PURIFICATION OF THE BLOOD, LIVER AND BILIOUS COMPLAINTS.

The Cruzeus of the Unin miffer much from disorders of the Liver and Stomach; sexrely any are free from the wears fast. The lair sex perhaps the most handsome in the world, into a certain period when, distressing to say, many lonse their teeth and good looks, while yet in the help ay of life, such sad evids may be effectively remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when hill will flow smoothly, and resemble plants in a congenial clinic, where an vertual spring appears to reign. As it regards the preservation of the lumnan frame, and the furtation of the minch may be effected, and t say learnessly that health and life can be prolonged for many ears beyond the redinance of the lumnan frame, and the furtation of his, much may be effected, and t say learnessly that health and life can be prolonged for many ears beyond the redinance of the lumnan frame, and the furtation of his, much may be effected, and t say learnessly that health and life can be prolonged for many ears beyond the reach of unclaimed in the directions which accompany each box.

A CASE OF WEAKNESS AND DEPLITION. inent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the Internal viscera to purify the blood and stimulate it into healthy nction—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm ean arise from their use in any quantity.

Internal viscera to purify the blood and stimulate it into health and life can be prolonged for many vears beyond the reordinary limits, it holloway's Pills are taken to purify the blood according to the rules land down for beath contained in the directions which accompany each box.
